**Key Numbers:**

- 1993 foundation
- 15 employees
- 1 specialty: photovoltaics
- 3 departments:
  - solar cells
  - specialty materials
  - solar simulators
- 200 m² colored active area
- 5 colors
- 1400 modules
- 355 panels
- 14 European Projects since 1998
- 1994 EPFL license for Dye Solar Cell technology
- 1300+ catalog items for the Materials department
- 1994 foundation
- 5 CTI Projects since 2000
- 2 new building integrated photovoltaic projects

**Record Efficiencies of Our Solar Cells:**

- 10.3% Organic dye
- 7.5% Ionic liquid
- 11% Perovskite
- 6% Solid-state

**SwissTech Convention Center’s Façade:**

- STCC Façade
- 300 m² surface
- 200 m² colored active area
- 5 colors
- 1400 modules
- 355 panels
- 9,000 hour stability test at 65°C under artificial sunlight
- 9 year equivalent of sun exposure
- 36 m wide
- 15 m tall
- 12 month study
